January										
February	06; 07	E-Fuels Conference & Exhibition	Barcelona - Spain	This conference is a bridge to meet and exchange leading industry speakers with the participation of e-fuel manufacturers, technology suppliers, consultants and policy advisors, and other stakeholders in the energy, renewable energy, e-fuel! Present the technical and applied aspects of the e-fuel market, while highlighting the latest challenges and opportunities the industry presents. During the two-day conference, issues included aspects such as E-Fuels in the automotive, aviation, maritime industries, challenges with e-fuel production costs and the latest technological advancements	https://www.curtiswyss.com/event/34	100+ Attendees	E-Fuels - production, challenges and market	Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual event NEF participating since 2019
	15; 16	International Conference and Exhibition on Future Fuel	Virtual	The annual World Future Fuel Summit is the leading global industry event and exhibition for future fuel, clean energy, environment and sustainability. Bringing together global business leaders, future leader (students), government, specialist exhibitors from globally, it showcases state-to-art technologies in clean future energy for globally	http://www.worldfuturefuelsummit.in/		Sustainable Future Fuel for Global Green Climate	Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual conference NEF participating since 2019
	28	Power and Renewable Energy Conference - Webinar	Oslo - Norway	Gather industry experts to provide company updates and discuss current topics and trends More than 60 companies in everything from hydropower, offshore wind, clean-tech, hydrogen, solar power and waste-to-energy present during the day	https://paretosec.com/updates/events-and-conferences/	2000+ Attendees	Power and Renewable Energy	Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual conference NEF participating since 2019
April	13	Conference	Norway	To discuss (SAF) both industrial opportunities and the green transformation of aviation.	Avinor		E-Fuels for Sustainable Aviation Fuels	CEO - Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Increase the visibility of the project Share knowledge on the project activities and development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects Engage more stakeholders and their acceptance De-risk the E-Fuel technologies 	One time event
	19; 20	CO2-based Fuels and Chemicals 2023	Cologne - Germany	The nova "Conference on CO2-based Fuels and Chemicals" is one of the most established worldwide and has developed into a unique meeting and networking place for the entire Carbon Capture & Utilisation (CCU) and Power-to-X industry and its customers. The upcoming 10th edition of this conference again will continue with this success and will showcase again the newest and most important developments in the fast growing field of CO2 capture and utilisation	https://co2-chemistry.eu/		Carbon Utilisation (Power-to-X): Fuels for	Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual conference NEF participating since 2017
May	08; 11	Industriuka - Conference	Porsgrunn - Norway	The event will bring together industry players, scientific community, chemical and mobility industries representatives, power companies, technology owners, process developers, business analytics, government officials and regulators, service providers, transportation companies, ren	https://industriuka.no/	150+ Attendees	Diverse industrial topics related to decarbonisation and current projects	Victor Dias	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual event NEF participating since 2021
	16; 17	CO2 Capture, Storage & Reuse Conference	Copenhagen - Denmark	The event will focus on utilisation of captured CO2 and its use for production of building materials like cement, concrete, steel, but also production of advanced fuels that will contribute to further decarbonization of other sectors. This event is also set to bring industry stakeholders, unique content, workshops discussions and networking. The environment will be created to showcase the products and services in the networking area and hold meetings with leaders from the industry.	https://fortesmedia.com/co2-capture-storage-reuse-2023.4.en.2.1.21.html	230+ Attendees	Reuse of CO2 for E-Fuels - production, challenges and market	Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual conference NEF participating since 2019

Month	Date	What	Where	Event Objective	Organiser	Audience size	NEF Topic	NEF Speaker / Resp.	Nordic Electrofuel Objective	Frequency
June	07;09	Sustainable Aviation Futures Congress	Amsterdam - Netherlands	Sustainable Aviation Futures Congress was developed to drive, establish and promote a pathway to decarbonising the aviation industry. Over two days, 92 expert speakers shared strategies, solutions, insights, aspirations and plans to reduce carbon emissions and contribute to a cleaner and greener aviation industry	https://www.safcongress.com		Opportunities and actual meaning of synthetic aviation fuels	Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual conference NEF participating since 2019
	15; 16	3rd Annual CCUS & Carbon Sinks	Amsterdam - Netherlands	3rd Annual CCUS 2023 provides an opportunity for collaboration and knowledge sharing to the industry and prepare a unified and practical strategy for development and implementation of CCUS techniques in the energy sector. It will discuss the perspectives on status of the CCUS development and its potential. It welcomes key market players to join the discussion and peer-to-peer networking in an exclusive group of experts to share their thoughts of current CCUS status and its development potential in the close future	https://www.prosperevents.com/event/3rd-annual-ccus-carbon-sinks/		E-Fuels - production, challenges and market	Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual conference NEF participating since 2017
July	TBD	CC Forum	To be decided (TBD)	An investment conference which is 100% dedicated to investment in sustainability – is convening the top business leaders, policy makers and public figures and defining the course of action we should collectively take to confront the existential challenges we are all facing today including climate change, fossil-fuel-based economies, overpopulation and poverty to name but a few. Its topics centre around investing in Environment, Renewable Energies, Emerging Technologies, Healthcare, Education, Social Inclusion and Philanthropy connecting the brightest start-ups to the savviest of investors.	https://cc-forum.com/	300+ Attendees	E-Fuels - production, challenges and market	Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual Conference NEF participating since 2019
August										
September	TBD	4th International Conference on Carbon Recycling	Virtual	Fourth International Conference on Carbon Recycling will include information about Japan's progress on its carbon recycling efforts—a key technology in achieving worldwide carbon neutrality—and an intensive discussion that will bring together global wisdom from the industrial, academic, and governmental spheres to convene on issues that arise when implementing this technology throughout society	https://carbon-recycling2022.nedo.go.jp	2500+ Attendees	E-Fuels - production, challenges and market	Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual event NEF will continue to participate
October	TBD	The European Carbon Dioxide Utilisation Summit	TBD	This event focused on new CO2 utilisation developments and technologies in the oil and gas, chemicals, energy, mineralisation, and E-Fuels industries, as well as other-end markets. The conference also highlighted international legislation; updates and requirements of the industry, as well as an overview of the market since the 2015 Paris agreement	https://www.wplgroup.com/aci/event/co2/	200+ Attendees	E-Fuel 1 project - Plan, challenges, production, and market	Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual event NEF participating since 2019
	03; 06	CCUs Conference	Virtual	The CCUS conference aims to focus on the key technical issues and solutions required to deliver results on this defined and tight timeline	https://www.spe-aberdeen.org/events/ccus-2023-call-for-abstracts/		E-Fuels - production, challenges and market	Gunnar Holen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual event NEF will continue to participate
	TBD	Conference - CO2 Storage and Utilisation	TBD - Norway	Gather industry experts to provide company updates and discuss current topics and trends More than 60 companies in everything from hydropower, offshore wind, clean-tech, hydrogen, solar power and waste-to-energy present during the day	https://gcnoden.no/event/	200+ Attendees	Presenting NEF and E-Fuel 1 project at Herøya. Plans, challenges, production and market	TBD	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual event NEF will continue to participate

Month	Date	What	Where	Event Objective	Organiser	Audience size	NEF Topic	NEF Speaker / Resp.	Nordic Electrofuel Objective	Frequency
November	TBD	European E-Fuels Conference	TBD	This conference brought together key industry stakeholders from the renewables, fuels, energy and oil & gas industry, including car manufacturers, e-fuel producers, technology providers, consultants and policy advisors. The goal was to present technical aspects of the e-fuel market as well as the latest challenges and opportunities in this sector	https://www.wplgroup.com/aci/events/european-e-fuels-conference/	200+ Attendees	TBD	Gunnar Hølen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual Conference NEF will continue to participate
	TBD	Societe Generale Positive Impact Week - Conference	TBD	The Positive Impact Week brings global decision makers in business, finance, politics, economy and policy together for a three-day programme providing unrivalled access, unique insights and thought-leadership on reinventing businesses to accelerate the transition.	https://positive-impact-week.societegenerale.com/#ZRHP	100+ Attendees	How can institutional investors play their part in the real economy transition?	Gunnar Hølen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual. NEF will continue to participate
	TBD	Advanced Biofuels Forum - Conference	TBD	Get a thorough understanding from sustainable and eco-friendly biofuels : ethanol maximization through algae. Discover the German market for waste-based and advanced biofuels. Discuss on the benefits of 2G biorefineries' performance. Explore the role of advanced biofuels in transport defossilization. Understand how biofuels can add to the mix of renewables in industrial-scale production plants. Understand the challenges in continuous hydro-processing of biocudes from organic wastes	https://www.leadventgrp.com/events/advanced-biofuels-forum/details	250+ Attendees	Biofuel conversion processes	Gunnar Hølen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual Conference NEF will continue to participate
December	TBD	E-Fuel World Summit - Conference	TBD	E-Fuel World Summit is a unique annual opportunity for all members of the eFuels community, representatives from various industries and applications "automotive, aviation, maritime, off-Road motorcycle, electric utilities, gas industry, energy intensive branches...", governments and trade unions, financial institutions, journalists to meet together and discuss the future of these promising chemical energy sources, to build partnerships, to establish and to grow business relationships.	https://www.e-fuelworldsummit.com/	40+ Attendees	Enabling renewable aviation	Gunnar Hølen	<ul style="list-style-type: none"> Disseminate and share Nordic Electrofuel (NEF) project and plans Share knowledge of NEF project development Show how NEF pretend to play an important role on CO2 reduction goal. Enhance the importance of investors in E-Fuel projects 	Annual Conference NEF will continue to participate
